

To Whom It May Concern

I, Christopher Kyle Smith, graduated from the University of Alabama with a degree in Telecommunication in the College of Communication and Information Sciences. This program is nationally accredited a distinction that fewer than twenty percent of colleges and Universities have earned. I have accumulated 15 hours of Computer Science with the Master of Applied Computer Science program at the University of West Georgia. This program is ranked twelfth in the nation in applied computer science.

I enjoy all technical aspects of computing and object-oriented programming. I especially enjoy dynamic web development and system network administration. I am interested in any position in which I can use my skills as a developer.

I can be reached at Email: csmith58@my.westga.edu, Phone: (678)-367-5112. I would appreciate an opportunity for an interview. Please contact me if there is a need for additional information.

Sincerely

Kyle Smith
